

Gold Newsletter

Vol. XXXVI

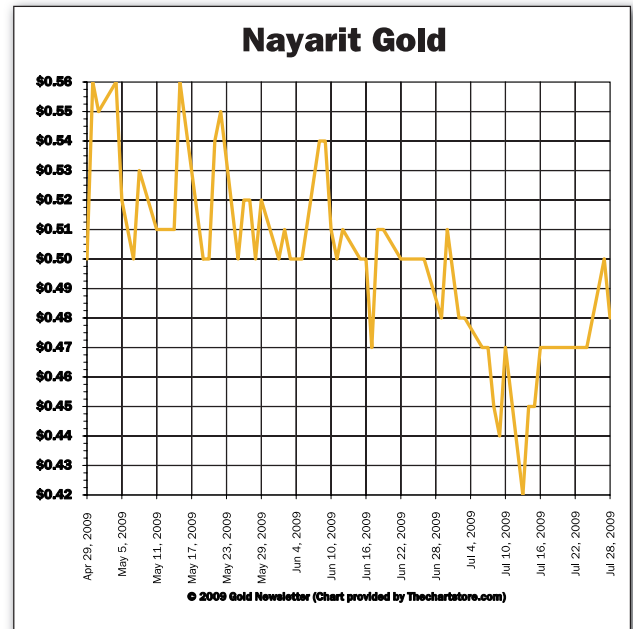

August 2009

• **Nayarit Gold** (NYG.V; NYRTF.PK; C\$0.48) turned in a few impressive intersections from its 30,000-meter drilling program on its Orion District project in Nayarit, Mexico.

Hole 239 expanded the project's Animas/Del Norte Discovery zone to the west with a 16.15-meter intersection of 2.49 g/t gold and 671 g/t silver (13.67 g/t gold equivalent or 820 g/t silver equivalent). Other expansion drilling to the east of Animas showed the mineralization there coming all the way to the surface from the area's already-outlined, sub-surface zones.

Data from this program will be incorporated into an upcoming NI 43-101-compliant resource estimate for the project. The company will follow that estimate with a scoping study for the Orion District as a whole.

Best of all, despite the continued strong results from Animas, several more targets await testing on Orion's district-scale property, adding more than a touch of blue-sky potential to this highly-prospective gold-silver project. Nayarit remains a buy. ▲

Get Gold Newsletter At HALF PRICE!

Founded in 1971 to help return the right of gold ownership to American citizens, Gold Newsletter stands today as the oldest and most respected advisory on precious metals and mining stock investing.

Every month, our readers get the views of today's leading market analysts, and discover the most promising new exploration plays — many of which are completely missed by other newsletters. The result: Our readers are reaping enormous profits...multiplying their money as much as *eight times over*...right now.

Through this special offer, you can download a special report revealing our latest blockbuster opportunities...AND get a full year of Gold Newsletter for just \$99.00 — HALF PRICE!
